

ABSTRACT OF THE DISCLOSURE:

1 A tissue adhesive on the basis of human or animal pro-  
tein contains factor XIII and at least 33 % by weight of  
fibrinogen, has a ratio of factor XIII to fibrinogen, ex-  
5 pressed in units of factor XIII per gram of fibrinogen,  
of at least 80, contains fibrinogen and albumin in the  
total protein at a ratio of 33 to 90 : 5 to 40, con-  
tains plasminogen-activator-inhibitor or plasmin inhibi-  
tor in an amount of 250 to 25,000 KIU per g of fibrinogen  
10 and has been lyophilized.
